## Apologies to WS Gilbert

(DT)

I am the very model of a very stable genius  
My hands are large in evidence of strength and virile manliness  
I win elections bigly with proportions most historical  
And all my subjects love me, although many are deplorable

CHORUS:

He wins elections bigly with proportions most historical  
And all his subjects love him, although many are deplorable

(DT)

My orange epidermis is a natural integument.  
My hairstyle sets a standard rivaled only by my temperament.  
My tweeting is unparalleled, my golfing is perpetual,  
My statements, like my golf scores, are forever counter factual.  
His tweeting is unparalleled, his golfing is perpetual,  
His statements, like his golf scores, are forever counter factual.

(JI)

My cognitive do thingies are the best the world has ever seen  
Alternative: My cognitive abilities the best the world has ever seen  
Believe me I will tell you this so big league trust me what I mean  
is that my brains are way too yuge to fit inside my cranium  
Forget about the Russians and let's focus on Uranium  
is that his brains are way too yuge to fit inside his cranium  
Forget about the Russians and let's focus on Uranium

(JI)

To make this country great again, eliminate the Mexicans  
I give myself a perfect score on flooding Puerto Rickians  
To put the people back to work, I throw them in the prisons  
Especially Black Africans and all the other minions  
To put the people back to work, he throws them in the prisons  
Especially Black Africans and all the other minions

(SG)

That Wolff guy is a loser and his boring book is full of lies  
Bannon, Flynn and Manafort, I barely even know those guys  
Rocket Man is short and fat and only likes to terrorize  
I'll make Korea great again, it all comes down to button size  
Rocket Man is short and fat and only likes to terrorize  
He'll make Korea great again, it all comes down to button size

(DT)

My habits and my habitat each demonstrate the finest taste.  
From toilets made of purest gold, to ketchup covered well-done steaks.  
And women all appreciate the purity in deed and thoughts  
I prove by moving like a bitch and grabbing them by private parts  
And women all appreciate the purity in deed and thoughts  
He proves by moving like a bitch and grabbing them by private parts

(DT)

In matters legislative, diplomatic, or environment,  
From abrogating treaties, to nullifying monuments,  
Though Democrats and liberals who hate and lose are envious  
I am the very model of a very stable genius  
Though Democrats and liberals who hate and lose are envious  
He is the very model of a very stable genius

## Alternative Fact Verses

(JL)

I raised the taxes on the rich by negative a Trillion  
It cost the people not a dime but fifteen thousand billion  
There's nothing that Obama passed that I will not eliminate  
And now I must go golfing while America becomes so great

(JL)

The pee tape, I mean dossier is fake there's nothing there to see  
and many people say it vindicates me absolute-ely  
This Mueller thing is over many people now are saying so  
And now I'll grab a covfefe which is my secret word for blow

(AS)

My goal to win the office was so you would call me president  
Although that liar Wolff has solid proof that I was hesitant  
And I will plate the walls with gold throughout the White House residence  
Cuz I'm so rich and smart and suave there really is no precedent

(AS)

The news is fake unlike my hair which really really is all mine  
There's nothing underneath it but a genius that is genu-ine  
And if you say I'm not so smart I'll sue and rant and tweet and whine  
Cuz I'm the president -you're not - til Mueller charges me with crimes

(JL)

No woman can resist me, cause I'm famous and I'm also rich  
Except for Crooked Hillary, but we all know that she's a bitch  
And everybody knows that she should really have been sent to jail  
I'm not guilty of anything, but she did that thing with email

(JL)

Don't pay attention to fake news, you know they all are very bad  
Everybody says I am the best Prez that we've ever had  
I love god, and I love women, and there no laws are above me  
I love Jews and I love blacks and we all know that they love me
