C - | G - | Am D (a b) | G

Let's pretend there's a golden land where all the people understand
that working, hand-in-hand, will build a better future
Let's pretend all are equal, to the law and to each other,
as our sisters and our brothers, and we share a common virtue
Let's pretend an obligation to the helpless and the needy,
not the selfish and the greedy, and those who bend the rules

Chorus

In the end, as we pretend
And trust it leads our feet along the path.
Let's pretend this is the hour, and we have the power
and then, what we pretend may come to pass
and then, what we pretend may come to pass

Let's pretend there's a beacon, shining brightly on a hill
Its light erasing shadows and exposing lying skills
Let's pretend we're a nation, of laws and not of men
Let's pretend to hold accountable the ones who'd bring it down
Let's pretend there's a better way than hatred and division
and, guided by the truth, people make a good decision

Chorus

C - | G - | Am - | D -

Let's pretend this is the hour, and we have the power
and then, what we pretend will come to pass
