

# Goldfinches

Dan Tappan - September 2015

## waltz time

A - D - A - E -

A D  
Outside my window, goldfinches flitting  
A E  
Bobbing and weaving, dippin' and divin'  
A D  
Chasin' each other, from thistle to thistle  
A E  
Flying together, like dancing together  
A D  
Long after midnight, under the mistletoe  
F#m E  
Knew it was late, but we couldn't stand to go

Home

D - A - E -

Outside my window, fallen leaves flying  
Twistin' and twirlin', whirling, swirling  
Chasing each other, around in a vortex  
rustlin' and cracklin', - your hiking shoe kicking  
piles. - Walking together.  
Enjoying the weather, as we made our slow journey  
Home

## instrumental bridge

D - A - E -

D - A - D - A - D - C#m - F#m - E -

Outside our window snowflakes are dancin'  
Driftin' and blowin', making a painting  
Sparkle and shadow in lights on the patio  
Presence and absence together. Together.  
Sitting and watching, while dying embers glow  
Here in the darkness, happy we found our way  
A Bm  
Home -  
F#m E  
Here in the darkness, happy we found our way  
A  
Home
