

# Penny In The Well

Dan Tappan - September 2020

When you wake up in the mornin' feelin' life's gettin' harder  
Gotta climb a greasy flagpole, to ring that bell  
Headed down the road, dogs gettin' louder  
Threw your last penny in a wishin' well  
Threw your last penny in a wishin' well

Gotta dig deep to break the surface / Dig deep where rocks are hard  
Dig deep when it makes you nervous / Might find treasure in your own front yard

When you can't find a focus for the light in the window  
Can't fight the feelin', comes on strong  
Can't make the curve, pedal to the metal  
Can't steer the ship when sails are gone  
(No you) Can't steer a ship when sails are gone

chorus

When you're standing in the meadow, storm clouds closin'  
Black water risin' above your knees  
Runnin' the maze but your feet are frozen  
Hiding in the shadows stifling a sneeze  
Hiding in the shadows tryin' to stifle a sneeze
